

BOSQUE DE CAPSADES ROUTE

This is a short route which allows us to explore the south side of the woods called **bosque de Capsades**. Although the proposed route is only 18.6 km, it poses some difficulty due to the slope called la cuesta del **Camí de la Sabatera**, a stone section where you must carry the bicycle and narrow technical paths through the woods. Ideal for those who seek an entertaining challenge and BTT lovers.

DESCRIPTION:

After the first flat kilometers in **El Pla** and a steep ascent on **Camí de la Sabatera**, we enter the wooded zone of **Capsades**, where there are several paths which provide fun routes. We then cross through the urbanización del Rafalet, and the route which borders the river takes us to the departure point.
